

Sushanta Marahatta

Full Stack Web Developer · Open to Work

+977 9826160838 | susaaant@gmail.com | Kathmandu, Nepal | LinkedIn | GitHub

PROFILE

Motivated Full Stack Web Developer with hands-on experience building end-to-end web applications using the MERN stack, interactive UIs, and game prototypes. Currently pursuing a Bachelor of Computer Science at Herald College Kathmandu. Passionate about creating clean, user-friendly digital products and always learning new technologies. Looking for a role where I can grow, contribute, and deliver real value.

PROJECTS

LifeFlow | lifeflow-uj6d.onrender.com - Live Project

- A full-stack blood donation platform built with the MERN stack that connects blood donors, recipients, and hospitals for a smooth and efficient donation process.
- Allows hospitals to post blood requests, donors to register availability, and recipients to find compatible donors — all through a clean, responsive interface.
- Deployed on Render; handles real users with live data.

AirWays (Colab Project) | github.com/Susshxx/colab - Collaboration Platform · Local

- Led as Project Manager and Full Stack Developer in a team project.
- Built a real-time collaboration platform using Html, CSS, JavaScript and PHP; runs locally.
- Managed project planning, task delegation, and end-to-end feature development.

Game Development Projects | Unity - Personal Projects

- Built 2D/3D game prototypes using Unity and C#.
- Implemented game mechanics, physics, and UI systems from scratch.

EDUCATION

Bachelor of Computer Science (BCS Hons) | Herald College Kathmandu - 2023 – Present

- Studying core CS concepts including algorithms, data structures, software engineering, and databases.

+2 Science (Computer) | Nist College, Kathmandu - 2019 – 2021

- GPA: 3.25
